BUILDING INFRASTRUCTURE with precision.

Building Infrastructure with Integrity, Innovation, and Excellence.

COMPANY OVERVIEW

A civil firm built on roads, kerbs & concrete.

S.V.P.INFRA is a Bengaluru-based civil construction and external development firm in infrastructure for residential, commercial and industrial projects. Founded in 2010 by Jayaram Prabhakar, we have executed sustained external-development mandates for India's most respected developers and public agencies.

Our work spans bituminous and concrete roadways, paver and kerb installations, drainage networks, boundary works and rainwater harvesting — delivered with strict full IS-code compliance.

PURPOSE & PRINCIPLES

Built on values. Driven by precision.

VISION

**Trusted.
Recognized.**

To be a leading civil engineering company recognized for excellence in quality, innovation and sustainable development.

MISSION

**Reliable.
Transparent.**

Deliver high-quality civil works with safety and efficiency. Ensure client satisfaction through professionalism and transparent operations. Contribute to the nation's infrastructure growth.

VALUES

**Integrity at
every kerb-line.**

Quality control to IS-code standards. Zero-accident culture. Environmentally responsible practice on every site.

CORE CAPABILITIES

Seven disciplines. One commitment.

<p>/ 01</p> <p>Road Construction</p> <p>Bituminous & concrete road execution — from sub-grade, prep to wearing course, finished to IS-code specifications.</p>	<p>/ 02</p> <p>Paver & Kerbstone Works</p> <p>Sub-grade, kerbstones, cobblestones and interlock pavers for campuses, malls and townships.</p>
<p>/ 03</p> <p>Granite Supply & Installation</p> <p>Direct quarry sourcing and precision installation for kerbs, plazas, façades and pavements.</p>	<p>/ 04</p> <p>Sewerage & Drainage</p> <p>Sewerage networks, manholes, and underground drainage execution with full QA/QC traceability.</p>
<p>/ 05</p> <p>Stormwater Management</p> <p>Storm drains, culverts and surface-water systems engineered for Bengaluru's monsoon load profile.</p>	<p>/ 06</p> <p>Boundary Walls & Fencing</p> <p>Site enclosures, RCC compound walls and perimeter fencing for industrial and residential plots.</p>
<p>/ 07</p> <p>Rainwater Harvesting</p> <p>Recharge pits, percolation wells and complete RWH systems compliant with BBMP / BWSSB norms.</p>	

MARQUEE CLIENTS

Trusted by India's marquee developers.

External development scopes executed for Phoenix Group, Hiranandani, SAP Labs, Wipro, and BMRCL — at malls, campuses, villas and metro corridors.

#	PROJECT	CLIENT	LOCATION
01	Phoenix Mall of Asia External Development	Phoenix Group	Bengaluru
02	Phoenix Market City External Development	Phoenix Group	Bengaluru
03	Hiranandani — Bannerghatta Road External Development	House of Hiranandani	Bengaluru
04	Hiranandani Villas External Development	House of Hiranandani	Devanahalli, Bengaluru
05	SAP Labs Campus External Development	SAP Labs	Whitefield, Bengaluru
06	Wipro SEZ — Kodathi Gate External Development	Wipro	Bengaluru
07	Bangalore Metro — Civil Works Civil & External	BMRCL	Bengaluru

PLANT · MACHINERY · TEAM

Owned plant. In-house fleet. Trained crew.

ASPHALT PLANT - OWNED

DIRECT SUPPLY - NO 3RD-PARTY DEPENDENCY

Jigani Hobli, Anekal Taluk

Sy. No. 130/2, S. Bingipura Village, Jigani Hobli, Anekal Taluk, Bengaluru - 562 1

MACHINERY & EQUIPMENT

In-house fleet.

Excavators & JCBs	01
Rollers	02
Paver Machines	03
Concrete Cutters	04
Vibrators	05
Compactors	06
Water Tankers	07
Dumpers	08

ENGINEERING TEAM

Skilled hands. Sharp minds.

- Civil Engineers
- Project Managers
- Site Supervisors
- Skilled Technicians
- Trained Workforce

— HSE & QUALITY

Safety isn't an afterthought. It's the foundation.

<p>1</p> <h3>Zero-accident culture</h3> <p>Site-wide PPE enforcement, daily toolbox talks, and incident-free targets on every project.</p>	<p>2</p> <h3>Regular safety audits</h3> <p>Scheduled and surprise audits at every site to validate adherence to safety protocols.</p>
<p>3</p> <h3>Environmentally responsible</h3> <p>Dust control, waste segregation and water-recharge practices integrated into project scope.</p>	<p>4</p> <h3>IS-code compliance</h3> <p>Materials, mix designs and execution methodology validated to relevant IS codes per project specs.</p>
